

# Upskill Your Workforce for Free

## Would your organisation benefit from a fully-funded language, literacy, numeracy and digital skills program?

Our Foundation Skills for Your Future program provides your business with a tailored training program for your employees, designed to improve their work performance, productivity and Work Health and Safety compliance.

We work with you to identify skills and training gaps in the areas that most impact your business and deliver a program to improve your workforce capability.

We can help you to:

- **Increase productivity and efficiency** - by improving listening, speaking and pronunciation skills to minimise errors and miscommunication
- **Improve customer satisfaction** - by ensuring employees communicate clearly, confidently and appropriately when speaking or writing
- **Manage risk** - by reducing workplace injury and unsafe practices through improved literacy and numeracy
- **Decrease staff turnover** - by improving team interaction and engagement through better communication
- **Reduce training costs** - by maximising professional skills and developing a digitally proficient workforce

Navitas English has experience working with over 8,000 employers across a range of industries and businesses. We have been delivering high quality training to our community and professional partners for over 20 years so we know that foundation skills are the key for a productive, engaged, and safe workforce.

95.7% of clients who elected to learn online in our employment programs reported an improvement in their computer/digital literacy skills.

**Contact us for a tailored solution to upskill your staff today!**
